

CERTIFICATE OF COMPLETION

This certificate is issued to:

Octavio Ruiz Díaz

Blue Stingray

For having achieved competence at the task management level:

GENERAL SAFETY ASPECTS (HSE)

This certificate affirms that the holder has demonstrated proficiency in General Safety Aspects. The individual has been rigorously evaluated in both theoretical and practical dimensions, according to the following standards:

- The minimum international safety training standard for the oil & gas industry.
- The Manila Amendments of 2010 of the STCW Convention, specifically as delineated in Section A-VII.

The certificate holder is required to present evidence of having met the prescribed competence standards and to perform the tasks, duties, and responsibilities outlined in Column 1 of Tables A-VII/1-1, A-VII/1-2, A-VII/1-3, and A-VII/1-4 of Annex A of the STCW Code.

Objective

To ensure the participant demonstrates comprehensive knowledge, understanding, skills, and proficiency in General Safety Aspects aboard the vessel *Blue Stingray*, and to validate the competence assessor's expertise in both theoretical and practical dimensions of general safety.
